

PUREZZA™

PREMIUM WATER

P1 Bar - Series E (Tap)

Elegant compact unit for the HORECA sector

Stylish high flow water cooling system for every requirement

P1 Bar - Series E (Tap) is the ideal solution for the hospitality sector. It efficiently caters for high demand requirements for cold, ambient and sparkling water, allowing for fast, multiple bottle filling even at peak times. A features-rich worktop dispenser with a unique and smart design.

Leading technology

The P1 Bar - Series E (Tap) features two core technologies:

Performance filtration

Professional grade filters are used to improve taste and reduce odours resulting in great-tasting, crystal-clear water.

Ice Bank cooling system

Ice Bank cooling technology is a necessity in busy HORECA environments where large quantities of consistently ice-cold water are required.

Professional water dispensing for commercial environments

P1 Bar - Series E (Tap) is the recommended solution front of house solution for HORECA environments such as bars, restaurants, cafeterias and conference centres.

Features

Clean design with external surfaces in stainless steel to facilitate easy cleaning

Adjustable drip tray height to easily fill different sized bottles

Three water dispensing options – cold, ambient and sparkling

Practical mechanical taps allow three bottles to be filled at the same time

Eco-sustainable refrigeration using R290 natural gas, for low environmental impact
