

INEOS Hygienics Sanitiser Dispenser

These innovative best-in-class dispensers ensure the safe, robust and hygienic delivery of global leading hand sanitiser.

Introducing the INEOS Hygienics Sanitiser Dispenser, bringing next generation hand sanitising to your business and home. With floorstanding, countertop and wall-mounted options the Swiss-engineered INEOS hand sanitising dispenser makes hand hygiene simple and efficient.

Advanced technology

Hospital grade sanitisation gel

INEOS high purity ethanol is manufactured to meet the specialist requirements of healthcare environments. Made from 75% alcohol solution with a unique blend of added skin moisturisers.

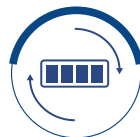

Touchless Technology

An effective way to keep hands hygienically clean. Having a simple, touchless, and easy to maintain solution is key to keeping everyone safe.

Swiss-engineered

Its precision Swiss-engineered construction gives you a reliable, easy to operate, durable and robust, hygiene solution for a wide range of commercial environments.

Rechargeable Lithium-ion battery

Provides flexibility with where you choose to position your dispenser. Charging can take place in any location and dispensers need never have any downtime. Once charged, this battery can be placed in the spare battery slot housed within the INEOS Sanitiser Dispenser, allowing for quick battery changeover and continuous use.

Simple cartridge replacement

The easy-replacement cartridges allow effortless sanitiser replenishment, with the external status light panel alerting operators when cartridge or battery levels are low. Each cartridge contain INEOS Hygienics hospital grade sanitiser, made from 75% alcohol solution and effective in killing 99.9% of viruses and bacteria.

*Not suitable for outdoor use
