

PUREZZA™

PREMIUM WATER

LANCER ID-4400 22

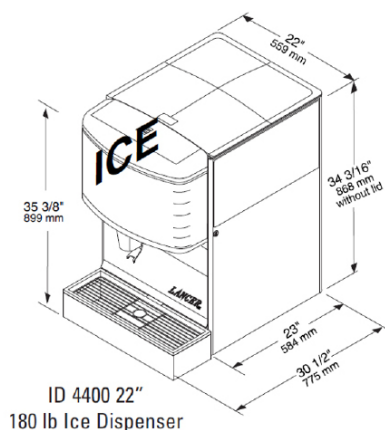

Countertop Self Service Ice Dispenser.

*Compatible KMD-210 Ice machine sold separately

The KMD-210 ice machine sits on top of the lancer producing the ice which is then stored in the lancer dispenser bin.

The ID-4400 22 Lancer configures perfectly with the KMD-210. Designed using the highest quality materials and state-of-the-art technology, the Lancer provides customers with consistent quality self service ice dispensing. Recommended for a range of self-service beverage areas such as hotels, cafes, takeaway outlets, canteens and break rooms.

Industry Leading

Lever Dispense

Push lever ice dispense, prevents touching the lip of a glass or cup, minimising risk of bacterial transfer.

Low ice-indicator

Visual low-ice indicator lights up to alert the need for ice in the dispenser bin.

Customisation

Illuminated interchangeable front graphics, standard fluorescent 15 w light bulb.

High-capacity drip tray

High-capacity drip tray to handle customer ice over-fill helps avoid safety hazards and station clean-up from spills.

Hygienic Finish

Heavy duty stainless steel construction, exterior and interior.
