

# KMD-210

Ecological ice maker for Crescent cubes with separate container.

\*Compatible ice storage bin base sold separately

### Ice Cubes

Crescent (Edge) cube: 38x29x13mm  
Average weight: 9 grams

### Production Capacity

210kg / 24h

### Corresponding bin

B-140 SA  
B-210 SA (1 x TK-18D Top Kit)  
Or Lancer Self-dispense unit.

The KMD-210 is a modular ice maker, producing versatile, clear, crescent shaped ice. It includes a double-sided stainless-steel evaporator, which requires fewer cycles to produce a bin full of ice, therefore reducing energy consumption. The crescent shape offers splash-free serving, ideal for a range of HORECA environments such as bars, hotels, restaurants, nightclubs and entertainment venues.

## Industry Leading

### Crescent shaped ice

The KMD produces clear, crescent shaped ice. The unique shape is built from the inside out with an internal temperature of -4°C. The consistent halfmoon shape also optimises maximum storage bin capacity.

### Crystal clear ice

Hoshizaki US patented evaporator allows only the purest water molecules to freeze, resulting in crystal-clear ice cubes.

### Performance filtration

Professional grade filters are used to improve taste and reduce odours resulting in great-tasting, crystal-clear ice.

### Energy efficient

Foam injected polyurethane insulation (HFC free) helps preserve the quality and consistency of the ice produced, reducing the number of production cycles.

# Features

## Reliable

An easy to clean air filter allows you to carry out a routine cleaning schedule, extending product life expectancy and reducing the frequency of engineer visits.

## Durable

Poor water quality is one of the major causes of equipment breakdown. The KMD double flushing system offers built-in self-cleaning, improving the lifespan of the machine. The KMD also has a new, stronger evaporator structure for maximum protection and improved durability.

## Hygienic

Removable door gaskets help prevent any heat and contamination from entering the bin, as well as making the machine easy to clean and maintain.

## Modular\*

The KMD-210 ice machine configures perfectly with a choice of three compatible ice storage bin sizes. For instant high volume self-serve establishments, the KMD-210 is also fully compatible with the 440 Lancer.

\*KMD compatible storage bins/ lancer dispense unit each sold separately to ice machines

# Technical specifications

## Dimensions

560mm (W) x 610mm (H) x 625mm (D)

## Weight Gross / Net

73kg/57kg

## Power Supply

1 phase 220-240V 50Hz

## Power consumption ( 24h power factor 75%)

683W

## B-140 SA (modular bin)

### Dimensions

559mm (W) x 1016 (Adjustable Legs +90 –120) (H) x 820mm (D)

### Weight Gross / Net

67kg/52kg

### Net capacity (l)

140

## B-210 SA (modular bin)

\*1 x TK-18D Top Kit also required

### Dimensions

762mm (W) x 1016mm (Adjustable Legs +90 –120) (H) x 526mm (D)

### Weight Gross / Net

70kg/59kg

### Net capacity (l)

210

## Lancer ID-4400 22

### Dimensions

559mm (W) x 899mm (H) (with legs) x 775mm (D)

### Space Required

572mm (W) x 787mm (D)

### Weight with ice

145kg

### Electrical

115VAC/60Hz, 3AMP's  
230VAC/50Hz, 1.5AMP's

# Operation requirements

## Ambient temperature

7-50°C

## Water supply temperature

7-35°C

## Water supply pressure

2.5bar
